

# Automatic transmission parts specialists

OEM quality at a fraction of the price

## Automatic transmission parts

The JPAT parts warehouse carries over 16,000 stock lines, and over 100,000 parts, consisting of: overhaul kits, friction plates, steel plates, bushes, seals, filters, gaskets, electrical items, hardware, torque converters, kick down cables, coolers, shift kits and lubricants, to cover a wide application of vehicles.

## Torque converters

With more than 300 re-manufactured units available 'off the shelf' and over 2,500 old cores awaiting re-manufacture, JPAT are a leading supplier of torque converters to the retail and trade sectors. We offer rapid turn around on your own unit, if we do not have a core available.

## Kick down cables

As manufacturers of kick down cables JPAT can offer a wide range of cables at very competitive prices. Special cables can also be manufactured to your specifications.

## Re-lined brake bands

JPAT engineers can reline your AP2 and Borg Warner bands, with heavy duty kevlar linings.

## ZF Car Parts Centre

As a member of the ZF Car Parts Group, JPAT are able to offer the full range of genuine ZF parts and ZF remanufactured transmissions, steering racks and pumps.

## Quality Assurance

JPAT's systems and policies operate in accordance with the ISO9001 quality assurance system.
